

Fumes

EDEN

The morning light shines a lifeline
Escape is what I need
I should've listened last night, girl
This is beyond belief
That we keep falling for the lure of
Liquid confidence and lights
And we skydive from walls we built
Dying just to feel alive

On the way down screamin'

Woah
If all we have is time, then we'll be alright
It's not much, but it's better than nothing
We're running on fumes, but we'll make it through the night
It's not love, but it's better than dreaming

Oh, I'm on fire
There's a burning in my bones and in my eyes
These dreams they're taking hold, I just need time
Time

Building walls to burn them down
Cannon balls to watch me drown
You've got me lost in here and now
You've got me gone and lost and found
We only hang in evenings
And I don't know what I'm thinking
But I know that I won't think it
If I keep up with this thinking
All these dreams and all these plans
We shared under the moonlight
They're dreams and plans that I have
I just don't know if you'll fit right
When I leave in the morning
And I kiss you and say goodnight
I kick myself until we kick it
Should've told you goodbye
Coming home so late at night
With clothes covered in sand
I don't know just what I'm missing
But I'm doing what I can
And if all we have is time then we'll be fine...

Woah
If all we have is time, then we'll be alright
It's not much, but it's better than nothing
We're running on fumes, but we'll make it through the night
It's not love, but it's better than dreaming

Woah
If all we have is time, then we'll be alright
It's not much, but it's better than nothing
We're running on fumes, but we'll make it through the night
It's not love, but it's better than dreaming
