

# Ghost in the Shell

EDEN

Sur la terre, tout est joli

Speaking of another life  
Rooftop convos, backstory of tattoos  
I can't imagine  
Eye contact fast, high hopes got dashed  
When you called me up  
I can't believe my luck  
The ghost I love's in love  
With someone else and he doesn't know about us  
And now it's fading away  
(And now it's fading away)  
I feel something  
(And now it's fading away, feel something)  
It's fading away (self-destructive)  
It's fading away

But can't I make you see, you belong with me  
Don't you know you're throwing it away, throwing it away  
Throwing it a-  
Can't I make you see, you belong with me  
Don't you know you're throwing it away, throwing it away  
Throwing it a-  
Sometimes when I feel what it does to me  
I just wanna throw it all away, throwing it away  
Throwing it, throwing it away, throwing it away  
Throwing it, throwing it away, throwing it away  
Throwing it

Gun hands in the air, slow motion  
Got me feeling something strange, it's a cold ocean  
Ahadadream showing me new ways  
I had a dream, there was no escape  
You got me back in your own ways  
I ate that karma, now the debts paid  
Eye for an eye, we saw each other change  
Orbits we had decoupled, in decay  
Then a couple years show me new sides of familiar faces

We fell out of touch, out of sync it chafed  
Fell on my face hit you for commiserations  
The tee shirt said the heart had changed  
Those texts made me a ghost in the shell

How can I make you see, you belong with me  
Don't you know you're throwing it away, throwing it away  
Throwing it a-  
Can't I make you see, you belong with me  
Don't you know you're throwing it away, throwing it away  
Throwing it a-  
Sometimes when I feel what it does to me (I feel something)  
I just wanna throw it all away, throwing it away (something)  
Throwing it, throwing it away, throwing it away (self-destructive)  
Throwing it, throwing it away, throwing it away  
Throwing it

I feel something (feel something)

It's fading away (self-destructive)  
It's fading awa-  
I feel something (I feel something)  
It's fading away (self-destructive)  
It's fading away  
I feel something (I feel something)  
It's fading away  
It's fading away  
It's fading away  
It's fa-  
I feel something  
It's fading away  
It's fading away  
I feel something  
(□□)  
It's fading away  
It's fa-
