

good morning

EDEN

I never had the guts to run away
Ever since 16, been dreaming of a brighter day
Out of control and out of everything
You came out the blue, or was it blue gray?

Felt like waking up in a new place (New place, new place)
That stole the dark from the night
Shone a new way, ooh (New way, new way)
But I can feel your heartbeat rising
Even when you're ghost
And I can feel your every single movement

So, good morning (Good morning)
Good morning (Good morning)
Good morning
It's a good morning (Good morning)
Good morning (Good morning)
Good morn-

I felt like waking up in a new place, ooh (As day breaks mortality)
That stole the dark from the night (Colors run and bleed)
Shone a new way, yeah (New way, new way)
(For fear now's the only time there is)
But I can feel your heartbeat rising (And just as good night comes following)
Even when you're ghost (Follow down and seem)
And I can feel your every single move (I, who watched this disappear)

So, good morning (And out of the dark you'll find you)
Good morning
Good morning (Given the time and space)
So, good morning
Good morning (The world will bend to guide you)
Good morning

I never had the guts to run away (And just as good night comes following)
Ever since 16, been dreaming of a brighter day (Follow down and seem)
Out of control and after everything (I, who watched this disappear)
You came out the blue
