

## Still

EDEN

I'm only mad cause I love you  
Can't make you see it my way  
Been trying to do the right thing  
I'm only sad cause I don't want to watch it

All fall apart  
Under the skin  
Into my arms  
Love at what cost  
Eyes full of tears  
Aim for the heart  
Head in the dark  
How was I supposed to know  
The love I was chasing  
Was bleeding me out

And airing my calls  
How I made it out boy  
Heaven only knows  
But I was somebody  
I've been here before  
Cause we want what we want  
But it's never enough  
Til it's gone

I just want to let you know  
It's still love even though  
I think of the end just to ease my mind  
Baby don't stress, happens all the time  
I just want to feel the rush  
It's still love after all  
And I think about death and it frees my mind  
I still don't want to watch it  
All fall apart

So wake me up before you go  
Arms around each other  
For a moment we were god  
Starlight in the morning  
I had everything I want  
Be dragged or let go  
Guess we'd all die for something

That won't die for us  
And why I'm still standing  
Heaven only knows  
But I was somebody  
I've been here before  
Cause we want what we want  
But it's never enough til it's gone

And I just want to let you know  
It's still love even though  
I think of the end just to ease my mind  
Baby don't stress, happens all the time  
I just want to feel the rush  
It's still love after all

And I think about death and it frees my mind

I know it's dark but it helps  
I know it's dark but it helps  
I know it's dark but it helps  
I know it's dark but it helps

I know it's dark but it's hell

I know it's dark but it helps  
I know it's dark but it helps  
I know it's dark but it helps  
I know it's dark but it helps
