

That's better

Heart beat, blunt feel, can't sleep  
Cold, but it's still burning  
Your precious time wasting, on me

So why you gotta drag me?  
I've been in a hole since like last week  
And I'm holding on, I've held on  
I'm holed up

'Cause you love in  
You love in, streams  
Seasonal life bringer  
'Cause you love in  
Yeah, you love in, streams  
But I can't keep swimming uphill, woah

Wonder how we'll call it in the light  
Saharan heat had me driving in the sky  
Throwing stones 'cause you're getting bored  
Kids in glass houses don't wear a lot of clothes

Okay, so why you gotta drag me?  
I've been in a hole since like last week  
And I'm holding up, I've held on  
I'm holding on

'Cause you love in  
And you love in, streams, streams  
'Cause you love in, you love in, streams  
But I can't keep swimming uphill  
'Cause you love in, you love in, streams  
Oh, the only way is up from here

Heart beats drowned out  
Let me go now  
Blunt feel trauma  
Sleepless cycle  
Precess further

Start a milk factory, go make uh, magazine, uh, get a job  
Drop anything, do anything, you know?  
Have fun, stay safe  
Safe sex, safe drugs  
And, uh, have fun, that's it
