

## Waiting Room

EDEN

Oh, I could stay here for some time  
Open Pandora's Box and scroll a while  
Flash cuts through rave like lightning strike  
I hate losing my cool, love losing my mind

Tears in the booth, if it was Pyrrhic I could never tell  
When I dream of you, do you see me as well?

If they don't really care, I don't really wanna know  
Carry versions of you every single where I go  
Waiting on a world that was never gonna show

But I don't wanna get stuck in my ways  
I haven't seen the stars in so long

I don't wanna get stuck in my ways  
Haven't seen the stars in so long
