

Little Bird

Edens Edge

Little bird, come to my window
And sing about the break of day
Little bird, come from the meadow
And tell me about your lonely way

I don't wanna put you in a cage
I don't wanna clip your wings
I don't wanna try to make you stay
I just wanna hear you sing
Oh, I just wanna hear you sing

Little bird, please bring the morning
The night is moving mighty slow
Little bird, push back the darkness
Your light is all I need to know

I don't wanna put you in a cage
I don't wanna clip your wings
I don't wanna try to make you stay
I just wanna hear you sing
Oh, I just wanna hear you sing

I just wanna hear you sing...

Little bird, yeah I can hear you
You sound so pure, sound so sweet
Little bird, I long to ask you
If I could fly would you fly with me

I don't wanna put you in a cage
I don't wanna clip your wings
I don't wanna try to make you stay
I just wanna hear you sing
Oh, I just wanna hear you sing

I just wanna hear you sing...
