

Outta Control

Edgar Winter

Something's wrong in the universe
Instead of better things are gettin' worse
Than they used to be
Too many people tryin' to be stars
Too many rockets, planes and cars
All for you and me
Everybody's goin' somewhere

We're outta control, we're spinnin' my soul
I'm outta control, just let me rock 'n roll

I need too much money just to stay alive
And I just can't handle all this jive
Man, it's everywhere
I'm just a show to the people it seems
They pay their tickets and hear my screams
Are they really there?
They just keep right on goin'

Outta control, spinnin' my soul
Outta control, just let me rock 'n roll
Gotta keep the wrong people outta control
[?], rock 'n roll

Yeah, here I go
Just a matter of time
Watch out now
Here it comes

Just tradin' a life for a livin'
We can stop it now
