

## Tell Me In a Whisper

Edgar Winter

We've gone our separate ways  
Spending our empty days  
Love's music gently plays without us  
It's more than I can bear  
Knowing there's no one there  
No one to really care about us

Won't you tell me, tell me in a whisper  
Tell me you can't resist a secret love  
It's such a mystery

Won't you tell me, tell me in a whisper  
Tell me you can't resist a secret love  
It's such a mystery

If there's a paradise  
Please tell me where it lies  
The love that's in your eyes is burning  
Our lives have met again  
Do you remember when  
Our love could only be a yearning

Won't you tell me, tell me in a whisper  
Tell me you can't resist a secret love  
It's such a mystery

Won't you tell me, tell me in a whisper  
Tell me you can't resist a secret love  
It's such a mystery
