

Where Would I Be

Edgar Winter

Where would I be, without you?
You give me hope and inspiration to get me through
You're a lovin' kind of woman, understanding
Lord, I love you
Where would I be without you?

Joy follows you wherever you are
Now you spread love and affection near and far
You've got shiny skies above you, birds around you
Lord, I love you
Joy follows you wherever you are

Where would I be without you?
There's a reason now in everything I do
Spring was surely fashioned of you, likened somehow
Lord, I love you
Where would I be without you?

Baby, without you, to see me through
Without you, to get me through
