

Beyond The Gate

Edge of Dawn

Enter at your risk is vital,
For the sake of your survival,
It's going to go all wrong,
And I won't be liable

I'm nearing the event,
The gravity will pull me in,
I'm hanging by a thread of light,
That's woven your skin

I'm out of lies,
(I need a place I can go)
I'm out of reason,
(but on on the verge of a breakthrough)
I'm out of Want,
(everything becomes suffice)
I'm out of light,
(is it safer in the dark)

I'm a suicidal planet and I'm aiming at the sun,
All the gravity inside me will give way to a beautiful calm,
If you're gravitating to me, now's the time to turn and run,
I see a raging ball of fire, burning life lines in my palms

Infinite dark rotation,
Magnetic isolation,
Am I, am I, am I,
My own innovation

I fear what Zeno said,
I'm going where I'll never get,
the distance is so close but,
I've not covered it yet

I'm out of lies,
(I need a place I can go)
I'm out of reason,
(but on on the verge of a breakthrough)
I'm out of Want,
(everything becomes a vice)
I'm out of light,
(is it safer in the dark)

I'm a suicidal planet and I'm aiming at the sun,
All the gravity inside me will give way to a beautiful calm,
If you're gravitating to me, now's the time to turn and run,
I see a raging ball of fire, burning life lines in my palms

We are faced,
With a lot of pain,
Until the last day,
(beautiful calm)
To throw my life into,
(so great)
We are faced,
(no pain)
With a lot of pain,

Until the last day,
(beautiful calm)
I'll learn what I can take
