

Another Life

Edge Of Paradise

Who is the victor
Who is the victim
The victor

I'm standing at the cross roads
On the night of the lost souls
I feel frozen in time
Release me from myself
Take my humanity
Your whispers in my head
You drive me to the edge
I want you to take me

Into another life
Let me fall into your skies
Another life
Let me wake into your night
I want to shed my skin
Take my humanity
And when you think of me
I'll outrun the wolves
And find you

I'll meet you in another life
Don't know where I'll go
Don't know where I'll be
Maybe on the road to someday
I'll walk through deserts
I'll walk through mountains
Outrun the end

Into another life
Let me fall into your skies
Another life
Let me wake into your night
I want to shed my skin
Take my humanity
And when you think of me
I'll outrun the wolves
To find you

I'll meet you in another life
I'm always chasing happiness
Always chasing happiness
Always chasing happiness

We can break the skies
And shatter the stars
You put the shards inside my heart
As we collide
Let's break the skies
And shatter the stars
You put the shards inside my heart
As we collide
I want you to take me

Into another life

Let me fall into your skies
Another life
Let me wake into your night
I want to shed my skin
Take my humanity
And when you think of me
I'll outrun the wolves
To find you
