

There was a girl
With crystal hopeful eyes
But with each thousand days
Left her with a thousand scars
And life showed distance
And time brought loss
And the light within her eyes
Lost it's glow

If you know this girl
Please tell her

We can be free
Free to reach the stars
Free to reach the stars

The girl, she had dreams
Broken by her doubts
And now she feels trapped
Tortured by her mind
Convinced she's nothing
Unworthy and strange
I wish I could tell her
She's perfect and brave

If you know this girl
Please tell her

You can be free
Free to reach the stars
Free to reach the stars

We'll be ok
We'll reach the stars

I was this girl
I was this girl
And I know now
We can be free
Free to reach the stars
Free to reach the stars
