

You Touch You Die

Edge Of Paradise

If I am your ruler
Who is your God?
If I give you forever
Will you go from a fight
To touch to die

You humans have a sickness
A fix that clouds the day
And hides the truth
You humans lost your way
You were given a perfect world
And you threw it away

The only way to win a war
Is not to fight

If I am your ruler who is your God?
If I give you forever
You give me your light
We are the war the night
The hope the fight
Это наше сердце
If I am your ruler
We go from fight to touch
To die

We humans have a sickness
A fix that clouds our day and hides truth
We humans lost our way
We were given a perfect world
And we threw it away

Your only way to win a war
Is not to fight

If I am your ruler who is your God?
If I give you forever
You give me your light
We are the war the night
The hope the fight
Это наше сердце
If I am your ruler
We go from fight to touch
To die

We gotta hold on to the good
Before it's too late before it's too late
We gotta hold on to the good
Before it's too late before it's too late

If I am your ruler who is your God?
If I give you forever
You give me your light
We are the war the night
The hope the fight
Это наше сердце
If I am your ruler

We go from fight to touch
To die
