

Lifter

Edgewater

Down a road less traveled and I see my purpose in front of me
And it's simple and It's gentle I found
Down a road less traveled and I feel my conscience running deep
And it's simple but it's mental I found

And I'm never looking back
No I'm never looking back
No I'm never looking back again

We all fall down
Time keeps changing
We all will hit the ground

Down a road less traveled, and I see my world beneath my wings
And it's simple but it's crippled I found
Down a road less traveled...
