

# I Had A Vision

Edie Brickell & New Bohemians

I have been blinded  
I can't see a thing  
Blinded by that day  
Darkness fell on me

I had a vision of how our life would be  
Rolling like a river, peaceful, wild, and free  
I had a vision of how our life would go  
A happy little family playing on the porch

Blinded by sorrow  
And all of these tears  
Blinded for so long  
All these many years

I had a vision of how our life would be  
Full of love and laughter and sweet harmony  
I had a vision of how our life would go  
All of our kids singing while you played piano

If I could lift this veil of darkness  
If I could see my way back to you

I have been blinded  
All the lights went dim  
Blinded by someone  
I can't speak of him

I had a vision of how our life would be  
Everything was beautiful, you were next to me  
I had a vision of how our life would go  
Everything was wonderful and I loved you so

If I could lift this veil of darkness  
If I could see my way back to you

I had a vision of how our life would be  
Everything was beautiful, you were next to me  
I had a vision of how our life would go  
Everything was wonderful and I loved you so
