

More Than Friends

Edie Brickell & New Bohemians

Bet you don't know you stole my heart away.
Bet you cant tell that I'm under your spell.
Haven't a clue what you do to me.
That I long to be more than friends.
Long to be more than a friend.
Innocently you came to me one day
You didn't mean to make me fell this way
Ever since then its been so hard for me
I long to be more than friends.
Long to be more than a friend.
I'm waiting for you to give me a sign
Been waiting here a long lonely time
You've always been a good friend of mine
And when you're near I watch you and I wonder
If you can hear my heart beat like thunder.
And when you go clouds roll over me
I long to be more than friends
Long to be more than a friend
