

# Pill

Edie Brickell & New Bohemians

You say you can't pay attention  
It's getting' pretty rough  
You feel a little down now  
And you can't get it up

They got a pill for that  
They got a pill for that  
They got a pill for that  
They got a pill for that

Now the pressure is rising  
It's gettin' to your head  
Nothing is exciting  
You wanna stay in bed

They got a pill for that  
They got a pill for that  
They got a pill for that  
They got a pill for that

Side effects may include  
Headache and anxiety  
Loss of appetite which means  
Palpitations and dry lips  
No desire to be kissed

You lie down in the darkness  
It's there when you awake  
Hounded by a problem  
Haunted by mistakes

They got a pill for that  
They got a pill for that  
They got a pill for that  
They got a pill for that

Ooh  
Ooh

They got a pill for that  
They got a pill for that  
They got a pill for that  
They got a pill for that

They got a pill for that  
They got a pill for that  
They got a pill for that  
They got a pill for that

Ooh  
Ooh  
Ooh  
Ooh
