

So Familiar

Edie Brickell & New Bohemians

So familiar, I could feel ya
When you came through the door
So peculiar, like I knew ya
Somewhere before

Where you from
Where you going
Where you been all this time
Where you from
Where you going
Where you been all my life

So familiar, I could feel ya
Burn like a flame
So peculiar, like I knew ya
Before I learned your name

Where you from
Where you going
Where you been all this time
Where you from
Where you going
Where you been all my life

So peculiar, like I knew ya
Right from the start
So familiar, I could feel ya
Here in my heart

You're my baby
How can this be
You're my sweet baby
Come back to me
