

## Wear You Down

Edie Brickell & New Bohemians

Really wontcha let your walls down  
I can tell you want to come out

It's another day  
You're allowed to change

I'll wear you down  
I'll make you come around

I once lost somebody like you  
They grew old and lonely and blue

Go the other way  
You're allowed to change

I'll wear you down  
Someday you'll come around

Someday soon  
Someday soon

And no matter what has transpired  
There's a chance for us to rise higher

It's another day  
We're allowed to change

I'll wear you down  
I'll make you come around
