

Won't Go Back

Edie Brickell & New Bohemians

Got my four wheels on the pavement
If you look, you'll find me gone
Got the pedal to the metal
My radio, my radio on

Got you in my rearview mirror
I intend to keep you there
I'm never going
I'm never going down that dark road
The road you're on

I been there, I done that
I'll go anywhere, but I won't go back

Never, never, never going back
Never, never, never going back
Never, never, never going back
Never going back

Now at last I made my mind up
Stubborn as the proverbial mule
I won't let you make an ass of this old fool anymore

I been there, I done that
I'll go anywhere, but I won't go back

I been there, I done that
I'll go anywhere, but I won't go back

Never, never, never going back
Never, never, never going back
Never, never, never going back
Never going back
