

For The Time Being

Edie Brickell

It must be nice to be full of good advice to say
It must be sweet, but I'll call you if I need it
I'm doing alright for the time,
Fine for the time being

I'll need professional help if it does get any worse than this
I'll be out on a ledge if it does get any worse than this
I'm doing alright for the time,
Fine for the time being

You think you know me well
You think you know me well
But you don't know me at all

It must be fine to think everyone is down the dirt
It must be nice but I don't you need you to ask for help
I'm doing alright for the time,
Fine for the time being
I'm doing alright for the time,
Fine for the time being

You think you know me well
You think you know me well
But you don't know me at all
Oh you don't know me at all
You don't know me like I know, like I know myself
You don't know me like I know, like I know myself
