## Woyaho

**Edie Brickell** 

Red dog riding in the back of a pickup truck Free on the freeway I look at him hoping praying he don't jump Driving me crazy Hey ya woyaho I ain't got no place to go Hey ya oh no

Sing songs sing them loud roll that window down High on the highway My heart beating fast running from the past Times we had Hey ya woyaho I ain't got no place to go Hey ya oh no

I ain't looking for no final destination with you I never want to get there I ain't looking for no final resting place with you I never want to die

Be there be there for me when I want you Be there be there for me when I need you Be there be there for me when I want you Want you want you want you to be there

Take me home c'mon Take me there c'mon Take me home let me stay

Hey ya woyaho I ain't got no place to go Hey ya oh no Hey ya woe is me I ain't got no where to be Hey ya oh
