

Let's Make It Up

Edison Lighthouse

If I live a hundred years
How could I forget the tears
That were in your eyes the night we broke apart?

Thinking of our better days
There's so much I want to say
If I only knew where I should start

Let's make it up, girl, while we can
A lonely heart needs a helpin' hand
Let's make it up, girl, while we can
'Cause now I've seen the light

You know it's true, I still love you
And in the same old way

Let's make it up, girl, while we can
Make it up today

I've been wondering all along
Does it matter who was wrong?
Is it really something that we have to know?

Now's the time to put aside
Every trace of foolish pride
Or we'll only hurt each other so

Let's make it up, girl, while we can
A lonely heart needs a helpin' hand
Let's make it up, girl, while we can
'Cause now I've seen the light

You know it's true, I still love you
And in the same old way

Let's make it up, girl, while we can
Make it up today

Let's make it up, girl, while we can
A lonely heart needs a helpin' hand
Let's make it up, girl, while we can
'Cause now I've seen the light
Make it, make it

Let's make it up, girl, while we can
