

# Take Me In Your Arms

Edison Lighthouse

Come on and  
Take me in your arms and make me love you  
Let me know how much I'm thinking of you

Come along and do it  
There's really nothing to it  
Baby if you try  
Baby take me in your arms

If loving you's a crime  
Then I guess guilty every time  
And I always love 'cause this heart of mine  
Needs you so

Maybe I'm a fool  
I no longer wanna play it cool  
My love is getting stronger  
So don't be cruel  
Need you so

Come on and  
Take me in your arms and make me love you  
Let me know how much I'm thinking of you

Come along and do it  
There's really nothing to it  
Baby if you try

Come on and  
Take me in your arms and make me kiss you  
Let me know how much I'm gonna miss you

Come along and do it  
There's really nothing to it  
Baby if you try  
Baby take me in your arms

I've just seen her face  
And the feeling that I never felt inside  
Makes this heart of mine  
Just melt inside, every time

Oh woah what can I do  
When I tried so hard to get through to you  
Somehow you won't let this feeling through  
To your heart

Come on and  
Take me in your arms and make me love you  
Let me know how much I'm thinking of you

Come along and do it  
There's really nothing to it  
Baby if you try

Come on and  
Take me in your arms and make me kiss you

Let me know how much I'm gonna miss you

Come along and do it  
There's really nothing to it  
Baby if you try

Come on and  
Take me in your arms  
And make me love you
