

## Counting Spooks

Editors

You know it's gonna hurt  
Sore feet dragged through the dirt  
Hit me right here  
The lazy way we love  
Good times we're dreaming of  
Hit me right here

It's getting late  
The skyline's a state  
This city's tired like we are  
We're holding it together  
Counting spooks forever  
I'm just so tired of numbers

Night vision on  
Get the missionaries home  
Hit me right here  
You know where I start  
And you know where I end  
Hit me right here

It's getting late  
The skyline's a state  
This city's tired like we are  
We're holding it together  
Counting spooks forever  
I'm just so tired of numbers

And it's getting late  
The skyline's a state  
And this city's tired like we are  
We're holding it together  
Counting spooks forever  
And I'm just so tired of numbers

Holding it together  
We're holding it together
