

# No Sound But The Wind

Editors

**D F#m E A E D F#m E A E**

**D F#mi**  
We can never go home

**E A E D**  
We no longer have one

**F#mi**  
I'll help you carry the load

**E A E D**  
I'll carry you in my arms

The kiss of the snow

The crescent moon above us

Our blood is cold

And we're alone

But I'm alone with you

**D A**  
Help me to carry the fire

**F#mi D**  
We will keep it alight together  
Help me to carry the fire  
It will light our way forever

If I say shut your eyes

If I say look away

Bury your face in my shoulder

Think of a birthday

The things you put in your head

They will stay here forever

Our blood is cold

And we're alone, love

But I'm alone with you

Help me to carry the fire  
We will keep it alight together  
Help me to carry the fire  
It will light our way forever

Help me to carry the fire  
We will keep it alight together  
Now help me to carry the fire  
It will light up our way forever

**D F#m E A E**

**D F#mi**  
If I say shut your eyes

**E A E D**  
If I say shut your eyes

Bury me in surprise

Where I say shut your eyes

Help me to carry the fire  
We will keep it alight together  
Help me carry the fire  
It will light our way forever
