

Upside Down

Editors

Out of the requiem, I don't notice you
As your cheap perfume fills the air
You're more than a lightning strike, you're a figurine
Glow like a movie screen, calm like a prayer

Never give up now, never give up, just never give up
I know it ain't easy
Never give up now, never give up, just never give up
Nothing comes easy

You could be upside down
But I hang with you, oh yeah
People don't play that sound
It's not what we're into
Oh, it's not what we're into

I'm not a dream, I'm not some optimist
I can't handle this little spark
The guilt of the cocaine kiss is afire in you
Oh the things you do in the dark

Never give up now, never give up, just never give up
I know it ain't easy
Never give up now, never give up, just never give up
Nothing comes easy

You could be upside down
But I hang with you, oh yeah
People don't play that sound
It's not what we're into
Oh, it's not what we're into
