One more waster digging holes  
Down where the streets are paved with souls  
It makes it harder to join the dots  
The river gets wider in front of us

The last train will pull you through  
At night the war still comes to you  
It makes it harder to join the dots  
The river gets wider in front of us

Baby we're nothing but violence  
Desperate, so desperate and fearless  
Mess me around until my heart breaks  
I just need to feel it  
Baby we're nothing but violence  
Desperate, so desperate and fearless  
Desperate and fearless

Oh, violence  
Oh, violence  
Oh, violence  
Oh, violence

One more waster digging holes  
Down where the streets are paved with souls  
The last train will pull you through  
At night the war still comes to you
