

I Never Finished A Test

Edson

Sometimes I see you
Sometimes I don't
Sometimes I need you
Sometimes I don't

Down, down
We fall down
Down, down, down
We fall down

I never finished a test in my life
All that I wanted was you by my side
I never finished a test in my life
Promises, promises vows and a ring
Suddenly trust doesn't mean anything
I never finished a test
Sometimes you're wrong

Sometimes I miss you
Sometimes I don't
Sometimes I kiss you
Sometimes I don't

Down, down
We fall down
Down, downtown
We fool around

I never finished a test in my life
All that I wanted was you by my side
I never finished a test in my life
Promises, promises vows and a ring
Suddenly trust doesn't mean anything
I never finished a test
Sometimes you're wrong
