Edward Barber

You u u u
You are my
Huh, 1 2 3!

I didn't even realize
'Til I looked in your eyes
And everything was clear
You'll never shed a tear
If only you would pick me
I would take away your fears
And this feels so right

'Cause you u u u u
You are my everything
You are my sweetest thing
And I will never leave your side
Oh u u u u
You mean the world to me
You're everything I see
If only you can be

(My girl, oh my girl)
(My girl, oh my girl)

This, this I promise you
My love will always be forever true
And now that you are here
I promise I'll be here
Whenever you are down
I will always give a cheer
And this feels so right

'Cause you u u u u
You are my everything
You are my sweetest thing
And I will never leave your side
Oh u u u u
You mean the world to me
You're everything I see
If only you can be

We will watch the stars tonight
Until our hearts collide
I'll hold you in my arms
Until the sunrise comes
Yaaaaah

You u u u u
You are my everything
And you u u u u
You mean the world to me

'Cause you u u u u
You are my everything
You are my sweetest thing
And I will never leave your side
Oh u u u u

You mean the world to me
You're everything I see
If only you can be

My girl
(Oh my girl)
If you could only be
My girl
(Oh my girl)
If you could only be
My girl
(Oh my girl)
If you could only be
My girl
(Oh my girl)
If you could only be
