

# Endlessly

Edward Maya

I see you and get so weak at the knees  
My head spins round and I forget everything, everything  
It's like you don't need me  
But it's still magic in my dreams

I could have it if I just carried on  
And took a step by the pond from the waters  
This could be my dream, is it happening for me?  
Oh don't let me drown, don't let me drown

I will love you  
Love you endlessly, endlessly  
I've always loved you, I've always loved you  
Love you endlessly, endlessly  
I've always loved you, I've always loved you  
Love you endlessly, endlessly

I see you and get so weak at the knees  
My head spins round and I forget everything, everything  
It's like you don't need me  
But it's still magic in my dreams

I could have it if I just carried on  
And took a step by the pond from the waters  
This could be my dream, is it happening for me?  
Oh don't let me drown, don't let me drown

I will love you  
Love you endlessly, endlessly  
I've always loved you, I've always loved you  
Love you endlessly, endlessly  
I've always loved you, I've always loved you  
Love you endlessly, endlessly
