

Familiar

Edward Maya

We didn't know where to start
So, it fell away
We never got real far
Some things never changed

'Cause it took no time at all
For the colors to fade away
It's a light that I need in the dark every day

And we don't really know where it's going
Just so long as I get there with you
Don't need to tell me twice
I'm here for you tonight
And we don't need to know where it's going

Everything is so familiar
Like we never took that time away
I see it in your eyes
You're here for me tonight
And we don't need to know where it's going

If you're wondering if it's gonna last
Let's not move too fast
Don't think it'll feel like that
Oh, no. I don't

It took no time at all
For the colors to show again
It's a light that I need in the dark every day

You're all I think about
You're all I think about every day

And we don't really know where it's going
Just so long as I get there with you
Don't need to tell me twice
I'm here for you tonight
And we don't need to know where it's going

Everything is so familiar
Like we never took that time away
I see it in your eyes
You're here for me tonight
And we don't need to know where it's going

Don't need to tell me twice
I'm here for you tonight
And we don't need to know where it's going
