

Heart

Edward Maya

All alone, rebel soul with a soft spot
You never follow the rules
You only follow your heart
You only follow your heart

Lucky charm, you're an angel in a sports car
I knew our day would come
I saw it right in the stars
I saw it right in the stars

And now that you're staring me in those dreams
Eyes closed, biting your lips, I feel alright
And now that we're holding tight in the night
Praise away the city lights, I can hide

I've been waiting

Looking good, I am cured, never knew I could
Flow so high, so in love
Feeling so brand new
Feeling so brand new

Shut the blinds, shut the door, lay with me some more
Your skin is telling me secrets
And I'll keep them secure
And I'll keep them secure

Now that you're staring me in those dreams
Eyes closed, biting your lips, I feel alright
And now that we're holding tight in the night
Praise away the city lights, I can hide

I've been waiting all my life
I've been waiting all my life

The way that you love the world tonight
The way that you move
I've been waiting all my life
For someone like you, someone like you, oh
