

I Need You

Edward Maya

Ooh, ooh
Yeah

We're together in this moment
'Fore the sun's coming up
Turning nothing into something (no)
Not like any other truck

Take it slow, I can be too much
Let me know if it's not enough
I got more, more of what you want
'Less you already ready to go, eh

Oh my, oh my, oh my, you got me like oh my God
Oh why, oh why, oh why you making it so hard
Oh my, oh mama, never felt this feeling before
And I don't ever wanna stop
And I need, I need to be with you
I mean, I do, I mean, I do
If we leave, I wanna see me and you
I mean, I do, I mean, I do

Let's unlock your wild side, I could be your good time
Underneath the moonlight, we could start a fire
Long as you come match mine, it could be for one night
Wanna give you new life, I mean, I do

You came in, I started breathing
You're like air inside my lungs
Don't you know that you're the reason
You're the reason number one?

Take it slow, I can be too much
Let me know if it's not enough
I got more, more of what you want
'Less you already ready to go, eh

Oh my, oh my, oh my, you got me like oh my God
Oh why, oh why, oh why you making it so hard
Oh my, oh mama, never felt this feeling before
And I don't ever wanna stop
And I need, I need to be with you
I mean, I do, I mean, I do
If we leave, I wanna see me and you
I mean, I do, I mean, I do

Let's unlock your wild side, I could be your good time
Underneath the moonlight, we could start a fire
Long as you come match mine, it could be for one night
Wanna give you new life, I mean, I do
Let's unlock your wild side, I could be your good time
Underneath the moonlight, we could start a fire
Long as you come match mine, it could be for one night
Wanna give you new life, I mean, I do
