

Live Alive

Edward Maya

I'm not gonna break the light that shines, I'm not gonna let it
fade away
I'm not gonna tame the wild inside, if I get lost, I'll find my
way
The streets are like rooftops tonight
These arms reach the sky

And finally I live alive
I live alive
I live alive

Among fake hearts and painted smiles
I see you drop of paradise
You walk like a warrior, facing victorious, underneath that ove
rsized
Your kiss is never taste of lies

You're not gonna break the light that shines, you're not gonna
let it fade away
You're not gonna tame the wild inside, if you get lost, you'll
find my way
The streets are like rooftops tonight
These arms reach the sky

And finally I live alive

The streets are like rooftops tonight
These arms reach the sky

And finally I live alive
I live alive
I live alive
I live alive
I live alive
I live alive

The streets are like rooftops tonight
These arms reach the sky

And finally I live alive
