

# Run Through Fire

Edward Maya

I won't, mmh  
Stay far from to you tonight  
The hot smoke, it burns our eyes  
Not my fault I can't get you

Out my head  
Givin' off somethin' like you're infrared  
A little closer  
To the kinda love that takes your breath

I run through fire with you  
Let this feelin' loose  
Keep our bodies movin'  
It's all we can do  
To make it out alive  
Or burn up with the night  
Keep our bodies movin'  
It's all we can do  
As I run through fire with you

Daylight, mmh  
Is so far from screamin' bright  
If it's alright, let's take our time  
Not my fault I can't get you

Out my head  
Givin' off somethin' like you're infrared  
A little closer  
To the kind of love that takes your breath

I run through fire with you  
Let this feelin' loose  
Keep our bodies movin'  
It's all we can do  
To make it out alive  
Or burn up with the night  
Keep our bodies movin'  
It's all we can do  
As I run through fire with you
