

That Song

Edward Maya

Somebody tell the DJ
Play that song we loved when we were young
I love it, I-I-I love it
This melody feels like a
Summer day on a Friday night
I love it, I-I-I love it
Ooh, play it every day
Play it every night
Somebody tell the DJ
Play that song we loved when we were young
I love it, I-I-I love it

I got a feeling tonight
And I know you're gonna call me like you do
You know I'll be by your side
We gon' party, we gon' loose it
Gon' party, we gon' loose it, so

Ooh, play it every day
Play it every night
Ooh, play it every day
Play it every night

Somebody tell the DJ
Play that song we loved when we were young
I love it, I-I-I love it
This melody feels like a
Summer day on a Friday night
I love it, I-I-I love it
Ooh, play it every day
Play it every night
Somebody tell the DJ
Play that song we loved when we were young
I love it, I-I

That's my favorite song
So play it loud
Forever and beyond
Party all the time
We're having fun
So play it every day
Play it every night for me

I love it, I-I-I love it
I love it, I-I-I love it

Somebody tell the DJ
Play that song we loved when we were young
I love it, I-I-I love it
This melody feels like a
Summer day on a Friday night
I love it, I-I-I love it
Play it every day
Play it every night
Play it every day
Play it every night for me
