

Time To Restart

Edward Maya

Been so weak for so long
Now we're starting to be strong
Been so far from my heart
Now it's time to miss that

Been so weak for so long
Now we're starting to be strong
Been so far from my heart
Now it's time to miss that

Night after night after night
I'm calling my heart
Day after day after day
I'm waking my heart
Night after night after night
I'm calling my heart
Day after day after day
I'm waking my heart

There's a wreath, there's a rise
And we're standing to the side
You're so far from my heart
And we're standing to the side

You're so far from my heart
And we're standing to the side
