## One Love to Another

## **Edward Sharpe & The Magnetic Zeros**

Somewhere over the earth A song, a song Somewhere I have heard My brother is gone

Away, under the moon Brother, brother Away, gone so soon Still singing his tune Still singing his tune

And away he gone day And away he gone night And away he gone dark And away he gone light

Up and away he gone away
But in a way he gonna stay
Oh, brother of hearts
We'll be singing someday
Yeah, we'll be singing someday
Oh, we'll be singing someday

Oh, brother of hearts
We'll be singing someday
Undead audio
Yes, we'll be singing right now

Some say I am to blame Brother, brother Some days I fell the same And feeling that shame Away under the moon

Brother, brother Away gone so soon Still singing this tune Still singing his tune

And away he gone day And away he gone night And away he gone dark And away he gone light

Up and away he gone away
But in a way he gonna stay
Oh, brother of hearts
We'll be singing someday
Yeah, we'll be singing someday
Oh, singing someday

Oh, brother of hearts We'll be singing someday Undead audio Yeah, we'll be singing right now
