

Empire

Edwin McCain

I've seen the congregations of the new souls
They aren't buying into all the stuff you told them
They know all the secrets they won't tow the line
They know that life is precious they're not wasting any time

It's the end of your empire
These kids will burn it down
The old world is on fire
It's the end of your empire
Burn it down
Empire down
Empire

We all felt the tremors in the concrete
Walls that felt so safe won't protect you anymore
They will not be fooled with manufactured hate
They all know that love is kicking down the door

It's the end of your empire
These kids will burn it down
The old world is on fire
It's the end of your empire
Burn it down
Empire down
Empire

It's the end of your empire
These kids will burn it down
The old world is on fire
It's the end of your empire
It's the end of your empire
These kids will burn it down
The old world is on fire
It's the end of your empire
Of your empire, of your empire, of your empire, burn it down

It's the end of your empire
These kids will burn it down
The old world is on fire
It's the end of your empire
Burn it down
