

Bloom

Edwin Raphael

You say flowers don't bloom
Like they're supposed to
Not in this weather
Not in this home

You say baby boy
Won't you listen to your heart
It's not your fault darlin'
Won't you care at all?

You say flowers don't bloom
Like they're supposed to
When we're hanging out
Shit's just different now

You said the magic's here
You need it, we got it
But to have it, we need to let it go
We've got nothing at all

The magic's here
We need it now
You always said
If we need it, we got it
Won't you let it fall, let it fall
Won't you settle down, settle down

The magic's here
We need it now
You always said
If we need it, we got it
Won't you let it fall, let it fall
Won't you settle down, settle down

Why I got to wait for you?
While I run away from you
Won't you let it fall, let it fall
Won't you settle down, settle down

Kinda want to wait for you
Settle down, settle down yeah
Settle down, settle down
Won't you let it fall, let it fall
Won't you settle down, settle down
Kinda want to wait for you

You say flowers don't bloom
Like they're supposed to
When we're hanging out
Shit's just different now
