

# Miss The Sun

Edwin Raphael

You need a change of heart  
If you want to make it out  
And your phone is ringing all the time

If you want to make it out  
I know you don't like it, I know you don't like it early  
But you don't wanna miss this, you don't wanna miss the sun  
I know you don't like it, I know you don't like it early  
But you don't wanna miss this, you don't wanna miss the sun

You're faking all your smiles  
See where the colors lie  
Lately your bringing me down  
It's hard having you around

But I know you don't like it, I know you don't like it early  
You don't wanna miss this, you don't wanna miss the sun  
I know you don't like it, I know you don't like it early  
You don't wanna miss this, you don't wanna miss the sun  
I know you don't like it, I know you don't like it early  
You don't wanna miss this you don't wanna miss the sun
