

Perfect Place 2 Be

Edwin Raphael

I've been running running on sunny days
I've been fighting fighting funny ways
Can you stay at all
Analyze the calls
It's every every where

I've been running running on sunny days
To my dismay dismay dismay
Can you stay at all
In our souls
Spade is spade anyways

I can see your eyes on me, on me, on me
I can feel it all the time
As you soak in this greenery, like me
It's the perfect place to be

Let's spend summer in the back of my hummer
Cause you know these seats go down
And your horoscope reads it'll be a good week
With a dude who can turn that frown upside down
Who speaks a little Spanish like me, who can beat up
The kitty like Muhammad Ali, got a million dollar smile
Like a dentist, now breathe
Ooh baby, you could swim in these jeans

Throw up the pussy like pom poms
I'll lay down the dickening like Don Juan and give you direction like tom-toms
A man on a mission, give me permission
My obsession with you might have me fishing like on mars!
She said "ooh, I'm thirsty"
Luckily we're just minutes from a stream! what do you mean?
We need a break in the routine, cause life ain't easy
When you've been living a dream

She said "ooh, I'm tweaking" baby girl, baby nah, what you mean?
In my defense, you hopping my fence cause you know
Whether indica or sativa, grass'll always be greener
Here

But don't worry about it, ooh nah
Don't worry about a thing...
Don't worry it's a dream...

I can see your eyes on me, on me, on me
I can feel it all the time
As you soak in this greenery, like me
It's the perfect place to be

I can see your eyes on me, on me, on me
I can feel it all the time
As you soak in this greenery, like me
It's the perfect place to be

I've been running running on sunny days
I've been fighting fighting funny ways
Can you stay at all

Analyze the calls
It's every every where

I've been running running on sunny days
To my dismay dismay dismay
Can you stay at all
In our souls
Spade is spade anyways
