And I was never part of your plans
Maybe I speak too soon
Disguised in malice unkept
Maybe I frighten you

Could love not be for me
Maybe it's a society that I could see
That turned my thoughts into few
However I flew however I do

So I try and balance
Your version like a tonic
I know with ease ease ease
For years years years

So I try and balance
Your version like a tonic
I know with ease ease ease
For years years years

And I could've seen you soar
I could've seen many more more more
But I know that it's out there
It's out there
It's out there
But I know that it's out there
It's out there
It's out there
