

Tangerine Skies

Edwin Raphael

And your notions are turning you blue
Don't you tell me something about you
Don't you leave this war for the boys
You're much too good for it anyway

Baby move like you want
Make me feel this way
Baby move like you want
Make me feel like this way

She said, "get out of my car"
If you're gonna play the same old tunes

Don't you know these tangerine skies
Used to make your make-up run
Now we're losing all our light
That won't ever hold us down
That won't ever hold us down
That won't ever hold us down

So baby move like you want
Make me feel this way
So baby move like you want
Make me feel like this way

So baby move like you want
Make me feel this way
So baby move like you want
Make me feel like this way

And your notions are turning you blue
Don't you tell me something about you now
