Graciously

Edwyn Collins

I've got a tiger in my tank
I keep your picture 'neath the dashboard
I've got a feeling in my bones
That when I call you won't be home

You'll be out there in the twlight
Waiting for the night to fall
Fall
Fall

You know you've turned my world around
And now I'm hanging upside down
And if you'd just give me your key
I would accept it graciously
Graciously

You say your youth is for the taking
You say I'll get there in the end
There's some confusion in my mind
As to what there is to find there

Still I want you more than ever
Though you make me feel so small
Small
Small

You know you've turned my world around
And now I'm hanging upside down
And if you'd just give me your key
I would accept it graciously
Graciously
(I hope that it all works out)
