

I Want You

Edwyn Collins

I want you
I need you
I want you
I need you
My savior
Is my preacher
My doctor
Is my teacher

She's the one
The only one
She's the one
The only one

She's all I've got
She's number one
That's all you say
And record break
The glass you break
To make your way
Don't deceive
Believe in her
Don't deceive
Believe in her

I breathe in
I traced you
I breathe in
I waste you
You're in my eyes
But on my mind
You criticize
Electric eyes

She's the one
The only one
She's the one
The only one
She's the one
The only one
She's the one
The only one
She's the one
The only one
She's the one
The only one
She's the one
The only one
She's the one
The only one
