

It's A Reason

Edwyn Collins

In my life, I can see
People rushing endlessly
To and fro, back to work
So many people out of luck

It's a reason to live for
It's a season for understanding
It's a reason to die for
It's good reason to strive for

I can see that change in me
That awkward sense of being me
Back to front, inside out
To realize what life's about

It's a reason to live for
It's a season for understanding
It's a reason to die for
It's good reason to strive for

It's a reason to live for
It's a season for understanding
It's a reason to die for
It's good reason to strive for

To live for
To die for
To hope for
To strive for

Hope and love and change
Change, change your life
