

Make Me Feel Again

Edwyn Collins

Make me feel again
Five twenty five on a Monday morning
I'm lying on my unmade bed
Outside these walls there's a new day dawning
As the sky turns from black to red
But I can't sleep a wink
Am I losing control?
I'm doubled up in agony
Won't you help me unfold?

Don't need no forward planner
I'm acting on a whim
Just need your bedside manner
To make me well again
Don't need no easy glamour
That much I figured out
Forget this melodrama
'Cause what it's all about is the...

The way you turned your head
When I called your name
All I need's your love
To make me feel again
The way you turned your head
When I called your name
All I need's your love
To make me feel again

Six twenty six on a Monday morning
And I make for the great outdoors
And I can't seem to shake off this restless feeling
I doubt I can take much more
No I can't live this life
Am I losing my mind?
I'm twisted up inside
So won't you help me unwind?

Don't need no forward planner
I'm acting on a whim
Just need your bedside manner
So will you let me in?
Don't need no easy glamour
That much I figured out
Forget this melodrama
'Cause what it's all about is the...

The way you turned your head
When I called your name
All I need's your love
To make me feel again
The way you turned your head
When I called your name
All I need's your love
To make me feel again
